Taxes and High Prices Stay According to 'Times' Editors

Price will rise again this year, with no end in sight to the steady chop in the value of a dollar, according to the editors of Changing Times magazine.

Ravages of inflation, taxes and high prices are having an effect on almost everyone, and the dollar spent today buys 13½ cents less than in 1950.

A tax cut, Changing Times say, is not in the cards for this year, don't expect much of a

dent in money problems. Furthermore, excise, local, state and hidden taxes will offer little let up.

Higher prices are also in order for the rest of 1957, with little relief—except for those who know good buys. Steel prices will rise this summer and when steel goes up, other prices (such as cars) rise, too. Price of wool items is expected to follow this trend, with home buyers finding the same results.

Budget-juggling will be even more tricky by fall. Other services on the upward trend include dry cleaning, doctor and dentist, garageman, as well as clothing and recreation.

CAMERA VIEWS 'JACKS' AN' 'JILLS' FROM SLOPE TO SUMMIT ON TIMP TREK

by Wally Barrus

GOAL IN VIEW—Summit barely shows destination (arrow) of early rising Timp hikers 12,000 feet above sea level. Perfect weather

drew nearly 3,000 participants, approximately 1,300 making it all the way.

LOCAL CHALLENGE—Mt. Timpanogos may not be as high or rugged as the Swiss Alps, but to the people of Utah who climb this majestic mountain every year, the challenge is just as great. Many persons attempt the ascent to summit, but fail because they lack courage and endurance. It is for those who are touched by the spirit of adventure and joy of beauty to reach the top.

The reward of a tin button may be small recompense for such a strenuous climb, but the real reward is in the feeling of accomplishment.

Timpanogos knows no age, for the youngest to the oldest can conquer her mighty slopes, and as long as she exists, people will continue to seek her rugged trails to be rewarded with beauty found only high on her slopes.

UPS AND DOWNS—Some like it going up, others coming down. Ralph McBride leads friends (center) up trail, while unidentified

slider (left) does it the easy way. Mrs. George Mortensen (right), Vernal, Utah, 69-year-old hiker rests at summit.

LONG TRAIL AHEAD—Joyce and Dave Terry take time out for a breather on way to top. Snow covered part of 14-mile trail.

HIGH ON A MOUNTAIN TOP—View from summit covers vast distance as one weary traveler appreciates. Climb started

in early hours of morning and climber reached peak in early afternoon.
